**Subject:** FW: Final Draft of Assumable Waters report  
**Attachments:** MH Waters4-03clean.pdf; Agenda\_Assumable\_Waters\_APril2017v2.docx

Hi, here is what was sent out late yesterday. I will read this and tag it. I don't expect others to have such time today. So while you have this version, I will send another version with sticky notes in it later today before our meeting.

Today's meeting we will cover:

- Big issues I've found in the report and want to draw your attention to

If we have time we will cover the Plan for the meeting on the 17<sup>th</sup>

Otherwise, we will cover that during our pre-brief Thursday. We can also discuss any issues at that time after you all have had a chance to read the report. But we may get through it all today

- Kathy

**Subject:** Final Draft

All

Please find attached in PDF the draft final report from the Subcommittee. Thanks go out to Rick, Les, Gary, Peg, Jan, Virginia, William and Michelle for all their hard work. Michelle as your super editor spend many, many hours incorporating and addressing numerous comments from the drafting work group. Also, please find attached the draft agenda for our call/webinar.

A reminder that the call is **Monday, April 17th, 2 to 5 PM EDT**. The Federal Register Notice is posted on the Subcommittee's EPA website.

We are attaching this document in PDF. This will still allow via the "sticky comment" function in Adobe to raise any final comments. We are not including a version in Word to discourage at this point, much more detailed editing given the extensive edits, review, and multiple versions, that we worked from over the last several months. We're not encouraging more comments at this point, but if you find something you cannot live with (or a mistake), do let us know ahead of the call.

A few things to note:

- We have few more citations to fill out
- We have a few final comments from a few members to address
- Any of these final edits will try and address before the call and send out an "errata" if we can
- We'll add graphics and a better look and feel after the call via a graphics designer that's been retained

Looking forward to our call on the 17th to finalize the report
